## BVB / 49 (back page)

### Recovery Interruption / Injury forfeit

#### **INSTRUCTION:**

#### Use of “recovery interruption” or forfeiting of the match due an alleged injury / illness, in the middle of the tournament

Following being assigned a “recovery interruption” or forfeiting of the match due an alleged injury / illness, through the use of the BVB49 the player shall be obliged to get the endorsement by the official medical doctor of the tournament to be able to play any subsequent match at that tournament. For this, immediately following the relevant scoresheet administration, he/she will be given a copy of the BVB/49 form by the match Referee (this does not apply to medical injury time-out due to blood injury).

Upon receipt, the athlete will be then responsible for filling in the reasons for the “recovery interruption” or the forfeit of the match and must then sign it and present him/herself along with the form at the tournament’s official medical office. After going through a check by the official medical doctor, the athlete will then be responsible for giving the form, duly signed by the official medical doctor, to the FIVB Technical Delegate who shall assess the situation (if needed together with the event’s Organizing Committee, the official medical doctor and the FIVB Medical Delegate, if present) and make a copy of the BVB/49 to be attached to the TD report together with the relevant match scoresheet.

In case the athlete has been cleared by the official medical doctor, the TD will then authorize his/her participation at any subsequent match at that tournament with the athlete receiving back the original BVB/49 form.

#### Use of “recovery interruption” or forfeiting of the match due an alleged injury / illness, at the respective last match in the tournament

In case the player has used a “recovery interruption”, or forfeited the match due an alleged injury / illness at his/her last match at a given the tournament, the same process as above will apply with the difference being that instead getting the endorsement by the official medical doctor of the tournament, the athlete shall be obliged to get the endorsement by the official medical doctor of the next tournament before being able to play their first match at that tournament.

Accordingly, the athlete will receive a copy of BVB/49 form by the match Referee being then responsible for filling the reasons for the “recovery interruption” or the forfeit of the match and must then sign it and present him/herself along with the form to the FIVB Technical Delegate who shall make a copy of the BVB/49 to be attached to the TD report together with the relevant match scoresheet.

The athlete will then receive back the original BVB/49 form to present to the next tournament’s official medical doctor before the preliminary inquiry. After going through a check by the official medical doctor, the athlete will then be responsible for giving the form duly signed by the official medical doctor, to the FIVB Technical Delegate at the Preliminary Inquiry. In case the athlete has been cleared by the official medical doctor, the FIVB Technical Delegate will then include the concerned team in the roster and make a copy of the BVB/49 to be attached to the TD report together with the relevant match scoresheet, with the athlete receiving back the original BVB/49 form.
